

## ASPAC asia - pacific region news

No.4: Dec 2006

### Message from ASPAC Chairman

It is an honor and pleasure to serve as the new chairman of the ASPAC. I will pursue what my predecessor, Mr. King Min, has nurtured, and I shall do my best for benefit of ASPAC member associations.

Since FIDIC Member Associations in the Asia- Pacific Region (ASPAC) was established in 1977, ASPAC has contributed to improvement of economy and technical cooperation among its member associations and played a key role in the consulting engineers industry in the Asia- Pacific Region.

In late years, a role of consultant for contributing to society changes greatly. Globalization in economy and social activities advance rapidly. Especially, powerful movement in Asian countries brings dramatic growth in economic activities of consulting industry.

Under these business environment, much variable and wider engineering skills are in demand not only for construction, but also for position of solution to environmental problem, and social problem, such as population, gender, education, etc.

I would like to make my best effort to strengthen cooperation among member associations continuously, and to work together for our business possibility and promotion. And, I would also like to contribute for our industry as well as sustainable development in the world through our joint efforts.

I would like to ask your support and would welcome your advice.

### ASPAC Activities

#### -ASPAC Website

ASPAC website, which is in FIDIC regions site, can introduce ASPAC purpose, activity, future event, etc. We would update ASPAC website appropriately, supported by FIDIC secretariat.

In future, subject to support from FIDIC secretariat, we will set up “ASPAC Information exchange system” which can work to exchange news and experiences of FIDIC consulting engineers in our region.

## -ASPAC Newsletter

This is Issue No 4 of a regular ASPAC Newsletter, in which we can introduce ASPAC activity and issues in our region.

Subject to support from ASPAC MAs, we expect to distribute two or three issues per year.

### Future Event and Conferences

- FIDIC-ASPAC-TCDPAP Regional Consulting Engineering Conference  
“Engineering and Disaster Management” 20-22 March 2007; Lahore, Pakistan
- FIDIC 2007 Conference
